Objective

Cloud Architect, DB Engineer, Cloud Database Administration, HA, Cloud Infrastructure.

Professional profile

Twelve years of professional experience in IT for several industry segments, like telecommunications, healthcare, steel/mining markets in international projects and global support.

Currently working for Oracle Corporation as Solution Architect / Solution Engineer in SADC region, helping customers to achieve digital transformation goals and adopt latest technologies on their cloud journey.

Experienced in customer-driven IT support environment, IT implementation and IT projects.

Certifications

1Z0-1072 – Oracle Cloud Infrastructure 2019 Architect Associate

1Z0-1085-20 – Oracle Cloud Infrastructure Foundations 2020 Associate

1Z0-931 – Oracle Autonomous Database Cloud 2019 Specialist

AWS Certified Solutions Architect - Associate

1Z0-485 – Oracle Exadata Database Machine 2014 Implementation Essentials

1Z0-053 – Oracle Database 11g: Administration II

1Z0-034 – Upgrade Oracle 9i/10g OCA to Oracle Database 11g OCP

1Z0-042 – Oracle Database 10g Administrator Certified Associate

IBM 000-103 – AIX 6.1 Basic Operations

TOEFL – Test of English as a Foreign Language

Work history

- **Oracle Corporation Ltd.** – since January/2019.
  Solutions Architect – Database Specialist.
  * Working closely to Territory Managers and Oracle technology Specialist Teams to provide Oracle Cloud solutions for customers, leveraging their cloud resources cost-effectively, understanding customer challenges and helping them achieve their goals.
  * Participating actively in Oracle Cloud events as a speaker for cloud solutions.
  * Perform online and face-to-face meetings with customers, supporting sales teams to wow! customers on Oracle Cloud solutions.
  * Working closely to customer teams to ensure cloud provisioning per best practices for performance and availability, motivating customer cloud trials and cloud adoption.
  * Covering SADC region primarily.
  * Focus on IaaS, PaaS and Oracle Autonomous technology.

- **Amazon Web Services** – from December/2016 to January 2019.
  Cloud Support Engineer
  * Subject Matter Expert (SME) for AWS RDS.
  * AWS Premium Support for RDS service (Oracle, Postgres/Aurora Postgres, Database Migration Service, Aurora MySQL, MySQL, MariaDB, Amazon Redshift, MSSQLServer) in the cloud for global customer base operational and architectural issues.
  * Expertise on AWS RDS, EBS, EC2 compute services and Data Migration Services (DMS) to the cloud.
  * Mentor and train colleagues in the RDS team in Cape Town.
  * Drive customer communication during critical events on a global scale.

- **Teiko Soluções em TI**
  Hospital Alemão Oswaldo Cruz – from May/2015 to November/2016
  Oracle DBA / Exadata DMA
  * Database administration of Exadata Production, test and development environments.
  * High availability with Oracle RAC and Dataguard standby.
  * Ensured practices to leverage Exadata features as:
  IORM, ASM, Advanced Compression/HCC, Storage Indexes, Flash Cache.
  * Exadata Resource Manager and I/O Manager (IORM) capabilities.
  * Backup: RMAN with advanced compression / EMC Networker and EMC DataDomain (deduplication), Oracle Cloud Backup.
  * Performance tuning, troubleshooting, to comply with access/security standards through auditing.
  * Successfully established Exadata monitoring in Oracle Cloud Control 12c for better database metrics control.

  Projects
  * Exadata planning and upgrade from X3-2 to X5-2 with zero downtime.
  * Dataguard standby database with Oracle ZFS Storage.
  * Plan and apply Advanced Compression and Hybrid Columnar Compression (HCC) technologies on the ERP Database.
  * To implement the ERP from Philips Clinical Medics in Oracle Exalogic and Exadata.

  BUNGE Limited – from November/2014 to May/2015
  Oracle DBA
  * Migration project of customer's agribusiness (60% of their global revenue) in Oracle Forms / legacy Itanium HP-UX platform / Oracle 9i to Oracle Supercluster Solaris platform / Oracle RAC 11g.
  * Performance tuning activities, ensuring Exadata best practices.

- **TUPY Foundry / Steel & Mining** – from February/2013 to November/2014
  IT Specialist – SAP BASIS, Database and infrastructure.
  * Administration of SAP Clients, local and remote client copy. Implementation of SAP Notes. Creation of RFC destinations for SAP Systems and connect SAP to legacy databases.
  * Perform standard operations as background jobs scheduling, setup operation modes and printer installations. Configuration of Transport Management System (TMS).
  * SAP security authorization operations (profile and role management),
  Upgrade Kernel, SPAM and support packages updates using SUM (Software Update Manager). Problem diagnosis using SAP GUI, Wily Introscope and J2EE Visual Admin.
  * Highly skilled in Oracle database environments.
  * Strong infrastructure skills focused in SAP: Hardware sizing and SAP Solution Landscape Planning.

- **TUPY Foundry / Steel & Mining** – from April/2010 to February/2013.
  Oracle DBA (Contractor from QuickSoft)
  * Responsible for Oracle RAC 11g databases for the company´s critical business application (ERP Totvs LOGIX, Oracle Application Server, business applications).
  * Production Support activities: administration, migration, duplication/cloning, schema refreshing, fixes & critical patches.
  * Backup and restore planning & execution using Oracle RMAN, Datapump, Exp/Imp with IBM Tivoli Storage Manager 6 and EMC DataDomain.

* Quickly provisioned Oracle RAC environment using IBM V7000 Storage Remote Copy (storage replication) and ASM technology.
* Research & implementation of database improvements, best practices and solutions provided by Oracle database and AIX operating system features with over a hundred proven improvements.
* Performance tuning (Oracle ADDM, AWR and ASH reports, database features and Oracle Enterprise Manager, plan stability).
* Configuration and maintenance of ASM instances, Transparent Application Failover.
* Monitoring of Production, Quality and Development environments with Grid Control 10g and 11g.
* Migration of Oracle Databases to IBM POWER 7+ servers, upgrade project from Oracle 10g to 11g with more than 200 custom applications relying on the DB.
* Experience with IBM AIX 6.1 and 7.1, Logical Partition setup using IBM POWERVM for IBM POWER servers.

- **IBM / Sprint-Nextel –** from June/2008 to April/2010
  Oracle DBA
  * Global support team from Brazil, India and USA for Sprint Nextel account in IBM. Responsible for managing over 50+ databases and oncall 24x7 support for over 400+ instances in UNIX Servers (Solaris SPARC, IBM AIX, Linux x86, HP-UX).
  * DB upgrades (9i/10g/11g), migration, duplication/cloning, schema refreshing using Datapump or Export/Import.
  * Database backup and restore using RMAN with over 6TB.
  * Performed performance tuning and table partitioning.
  * Oracle critical patches in standalone or RAC instances.
  * ETL data loading with SQL*Loader.

Languages

English: Full professional proficiency. Approved in TOEFL and FISK PROFICIENCY exams.
Portuguese: Native language
Spanish: Basic

Education

- **Graduated in IT Management**
  UNISEB.

Courses and trainings

05/2019: **Cloud Administrator for OCI**, Oracle University

02/2019: **The Professional Presenter**, Cegos/Oracle Sales and Partner Academy

02/2019: **Demonstration Excellence**, Oracle Sales and Partner Academy

07/2018: **Advanced Architecting on AWS**, AWS training and certification

02/2018: **Architecting on AWS**, AWS training and certification

01/2018: **Migrating to AWS**, AWS training and certification

06/2017: **Certified Solutions Architect - Associate 2017**, Acloud.guru.

02/2015: **Exadata Database Machine Adm Workshop,** Ensof / Oracle

07/2014: **SAP BASIS,** Trainning Education Services.

02/2014: **SAP GRC PC and AC,** PricewaterhouseCoopers Brasil.

04/2013: **SAP TERP10 – Business processes integration in SAP ERP,** SAP Brasil

10/2012: **DB2 for SAP: Technical Advantages and Migration - Workshop**, IBM

04/2012: **6231B - Maintaining a Microsoft SQL Server 2008 R2 Database,** KeepIT

01/2012: **Upgrade and Migrate to Oracle 11g - Workshop**, Oracle do Brasil

06/2011: **AIX basic operations,** Tupy / IBM

10/2010: **Oracle RAC 11g training,** NERV

01/2009: **Oracle RAC 10g,** IBM

07/2008: **Oracle Database Workshop I**, IBM

12/2007: **Microsoft Student to Business Program - Developer .NET/C#,** Microsoft

Availability

Available to relocate, available to travel.
Brazilian and Italian citizen.
USA Visa category B1/B2.
South Africa permanent residence visa.
