Personal Profile

I am a very passionate hard-working analytical person. I love solving problems that is why I majored in mathematics and actuarial science. Having a strong mathematical background has given me the ability to tackle very complex problems. Being a BSc Mathematical Statistics holder, I know how to analyze data and build statistical models that can help improve productivity and efficiency. Because of big data, companies will need statisticians to analyze and make sense of data by enhancing machine learning.

Education

University	: University of Pretoria (South Africa)
Highest qualification	: Bachelor of Science (BSc) Mathematical Statistics
Degree Status	: Complete
Year Obtained	: 2018

Major Modules : Actuarial Statistics, Financial Engineering, Stochastic Processes, Multivariate Analysis, Time Series Analysis, Probability and Statistics, The Science of Data Analytics, Informatics, Public Economics, Financial Management, Accounting, Mathematical Analysis, Calculus, Linear Algebra, Differential Equations, Macroeconomics and Imperative programming.

High School : Pretoria Institute of Learning (South Africa)

Highest Grade Passed : Grade 12

Year Obtained : 2012

Subjects Passed : Pure Mathematics, Economics, Accounting, Business Studies, English language, History, Tourism and Life Orientation.

High School : Private School (Zimbabwe)

Highest Grade Passed : Ordinary Level (O-Level)

Year Obtained : 2011

Subject Passed : Mathematics, English, Accounting, Economics, Art, Commerce and Integrated Science.

High School : Petra High School (Zimbabwe)

Highest Grade Passed : Level 3 Advanced Diploma in International Tourism. (City and Guilds), Level 3 Certificate in Accounting (City and Guilds)

Subjects Passed : International Tourism Principles 3, International Tourism Operations 3, Accounting Level 3.

Year Obtained : 2008

Work experience

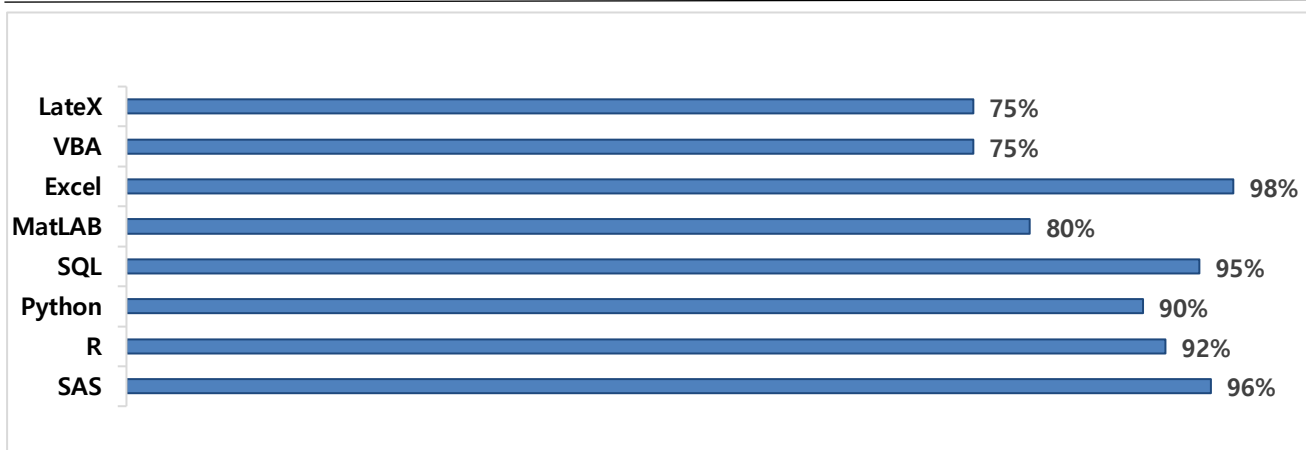

Data Analyst at Expolink2020 (Dubai, United Arab Emirates)

August 2019 – Present

- Managing master data, including creation, updates, and deletion.
- Develop analysis and generating reports from multiple systems.
- Managing and designing the reporting environment, including data sources, security, and metadata.

- Assessing tests and implementing new or upgraded software
- Supporting initiatives for data integrity and normalization.
- Provide quality assurance of imported data, working with quality assurance team.
- Supporting users on Platform.

I.T Proficiency

Additional Personal Details

Home language : Shona
 Other Languages : English, Ndebele
 Gender : Male
 Date of Birth : 24 December 1990
 Citizenship : Zimbabwean

Hobbies

Sport : Chess (Represented University of Pretoria 2014-2017)
 Athletics (Petra High 2004-2008), Rugby (Petra High 2006-2008), Basketball (Petra High 2006-2008), Social Soccer.

Leisure : Watching Business and Economics News, Following Astronomy on academic journals, YouTube and the internet. Watching Rugby, Soccer and Cricket. Watching movies and series.
